Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 September 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Election Restrictions

Applicant's election without traverse of group 1 and species A in the reply filed on 9/13/06 is acknowledged.

After further review claims 3 and 9, are withdrawn for being directed towards nonelected species B.

Claim Objections

Claim 14 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 14 only recites that the outer layer is knitted, woven, or braided, which is already stated in claim 10 which it is dependent from.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 4-8, 10-16, and 18-22 are rejected under 35 U.S.C. 103 as being unpatentable over United States Patent Khosravi et al. 6,322,585 B1 in view of United States Patent Schmitt 5527353.

Khosravi discloses the invention substantially as claimed being a polyester graft 812 surrounded by a stent 814. The graft is secured to the stent through d shaped fasteners, which are made from a radio-graphically differential material. However, Khosravi does not disclose the specific structure of the graft.

Schmitt teaches the use of a dual layered graph made with an outer layer of woven polyester and an inner layer of smooth ePTFE in the same field of endeavor for the purpose of providing a fluid tight prosthesis with sufficient pore size to promote tissue ingrowths and healing.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to combine the woven outer graft structure and smooth inner layer of ePTFE taught by Schmitt with the stent graft of Khosravi in order to increase the prosthesis' flexibility, kin resistance, and to provide the inner surface with a continuously smooth surface, which is naturally anti-thrombogenic.

Allowable Subject Matter

Claims 3, 16, 19, 21, and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher D. Prone whose telephone number is (571) 272-6085. The examiner can normally be reached on Monday Through Fri 8:30 to 5:00.
